Vision of the Department

To provide best quality education in the field of Engineering and Technology to the aspirants and serve the nation through developments of scientific, creative, trustworthy human asset.

Mission of the Department

- To meet engineering manpower needs for social, techno-economic development of region and nation
- To contribute to knowledge through research and development.
- To imbibe habits of creativity and innovation to generate IPRS.
- To inculcate noble values of ethics, morality, integrity, and humanity.
- To get global accreditation for all courses.

Vision of the Department

To provide best education in Electrical Engineering and technology to the aspirants and serve the nation through development of innovative human asset.

Mission of the Department

- M1: to make the department of Electrical Engineering a preferable destination for admissions.
- M2: to provide quality Technical Education using modern tools in the field of Electrical Engineering.
- M3: to create competent and skilled Electrical Engineers who are able to handle Electric and Allied system.
- M4: to make the department of Electrical Engineering learning and agile center to nurture the spirit of innovation, creativity and entrepreneurship among the students and the faculty members.

Proceedings

1. Welcome Address

The Chairperson welcomed all attendees and provided an overview of the agenda, emphasizing the importance of stakeholder collaboration in advancing the department's goals.

2. Presentation of Previous Meeting Minutes

The minutes of the previous meeting were read and approved by the members.

3. Discussion Points

3.1 Feedback from Parents

- Parents highlighted the need for **better communication channels** between the department and families. Suggestions included:
 - Monthly newsletters to keep parents informed about departmental activities.
 - Frequent parent-teacher meetings to discuss student progress and concerns.
- A request was made to introduce **life skills training** for students, focusing on communication, teamwork, and leadership.

3.2 Inputs from Industry Experts

- **Skill Gaps:** Industry experts identified gaps in areas such as:
 - Advanced construction technologies (e.g., 3D printing, smart materials).
 - Proficiency in civil software tools (e.g., STAAD.Pro, ETABS).
 - Sustainable construction practices and green building certifications.
- **Internship Opportunities:** Recommendations were made to expand industry tie-ups to ensure every student gets hands-on experience.
- **Research and Innovation:** Industry members encouraged collaborative projects between students and companies to foster innovation.

3.3 Incorporating NEP 2020 Guidelines

- The Expert faculty presented a roadmap for aligning the curriculum with **NEP 2020** directives, including:
 - Introducing **multidisciplinary electives** and flexible learning pathways.
 - Strengthening **experiential learning** through labs, internships, and live projects.
 - Establishing skill-based certification programs in collaboration with industry.
 - Focus on **regional and national issues** such as disaster resilience and urban planning.

3.4 Faculty Expert Views

- Faculty experts emphasize that the curriculum should integrate **modern trends**, such as sustainable

construction, smart cities, and green building technologies.

- They advocated for the inclusion of **hands-on learning** through internships, case studies, and project-based coursework.
- Experts encourage DAB to foster relationships with construction firms, consultancies, and public infrastructure agencies for internships, guest lectures, and real-world project exposure.
- Advisory boards can help identify **industry-specific certifications** and skills that improve student employability.
- Expert Faculty see the DAB as a bridge to facilitate industry-sponsored research, focusing on areas like earthquake-resistant structures, advanced materials, and environmental impact mitigation.
- They stress the importance of **interdisciplinary projects** involving collaboration between civil, mechanical, and electrical departments.
- Faculty experts recommended emerging tools and software such as **BIM (Building Information Modeling)**, GIS, and structural analysis tools incorporation in the teaching-learning process.
- Faculty experts advocate incorporating **soft skills training** (e.g., teamwork, communication) to prepare students for real-world challenges.
- Faculty experts value the DAB's role in gathering feedback from alumni and employers to refine teaching methodologies and address skill gaps.
- They push for **periodic reviews** of program outcomes and benchmarks with international standards.
- Faculty Expert members stressed the need for DABs to prioritize ethical practices and sustainability principles in civil engineering education.
- They highlighted global challenges like climate change and urbanization, urging DAB to keep these as core themes in the curriculum.

3.5 Department Faculty Feedback

- Faculty emphasized the need for continuous professional development programs to stay updated with emerging trends.
- Suggestions to enhance laboratory infrastructure to meet advanced curriculum requirements.
- Proposal to conduct regular departmental workshops and seminars with industry leaders.

4. Action Plan Development

The following action points were identified.

1. Short-Term Goals:

- Organize a parent-teacher meeting within the next month.
- Launch a newsletter by the end of the semester.
- Initiate skill-based training workshops.

2. Mid-Term Goals:

- Develop MOUs with at least three leading construction firms for internships and projects.
- Upgrade lab equipment and facilities.

3. Long-Term Goals:

- Revise the curriculum to align fully with NEP 2020 by the next academic year.
- Build a center of excellence focusing on sustainable construction practices.

5. Any Other Business (AOB)

Members discussed the possibility of organizing an annual **Civil Engineering Symposium** to showcase student projects and research papers.

6. Vote of Thanks

The Chairperson thanked all participants for their valuable insights and active engagement.

Sr. No.	Agenda/Subject	Discussion and Details
1	Welcome of Hon. DAB members	The HOD of the Computer Science and Engineering Department, Prof. M. K. Hasbe, welcomed all the members for the 1 st meeting of DAB
2	Speech by Hon Principal Dr. D. V. Ghewade	Hon. Principal Dr. D. V. Ghewade Sir introduced the industrial expert and the academic expert, and then enunciated the four pillars on which the Academic Process of the institute is based: 1. Best teaching-learning process 2. Strong industry connects, which includes: • Well-planned industrial training for both students and faculty members • Internships • Projects based on industrial problems and societal needs 3. Going beyond the curriculum through co-curricular courses 4. Soft skills as a subject, over and above the university curriculum.
3	Departmental Presentation by HOD	The HOD Prof. M. K. Hasbe presented an overview of all the activities undertaken by the department from its inception to date.
4	Remarks and Suggestions by Academic Experts Dr. Anagha Kulkarni	1. Value Added Courses • The department should organize value-added courses with practical learning on AIML. Students will be encouraged to follow a software engineering approach while designing the projects. • A mini-project should be assigned to students for hands-on learning. • Students will have the flexibility to choose their programming language for the project. • Peer-to-peer learning approach should be maintained, where students can assist each other in learning. 2. Project-Based Learning & Documentation • Students should be allowed to choose projects from real-time internet sources to develop practical skills. • Clear guidelines will be set for documentation of the projects to ensure quality.

		- Regular progress assessments will be conducted. 3. Academic Performance Improvement - Extra Tutorials: Additional tutorials should be conducted for Discrete Mathematics & Structures - Extra Problem-Solving Sessions: Faculty will focus on resolving difficult problem-solving queries from students through extra sessions. 4. Industry Institute Interaction - Dr. Anagha Kulkarni will introduce some of the industry to institute for collaborations. 5. Startup Ecosystem and Entrepreneurship - Dr. Anagha Kulkarni suggested to contact the Wadvani Foundation to promote entrepreneurship among students and provide guidance for their ventures. 6. Faculty Development Program - Organize a one-week Faculty Development Program (FDP) in collaboration with other colleges. - Faculty members are encouraged to attend conferences at other colleges to stay updated with the latest academic trends. - Encourage faculty to become members of ISTE (Indian Society for Technical Education). - Organize workshops and guest lectures under IEEE and CSI chapters. - Faculty should conduct workshops and activities under the AIML club.
5	Remarks and Suggestions from Industry Experts Mr. Amit Pednekar	1. Industry Expert Engagement - Faculties are encouraged to engage with industry professionals and discuss job-related opportunities with students. - Increased interaction between faculty and industry personnel will help students understand job market trends. - Suggested collaboration between the department and Simdaa Technology for utilizing Machine Learning Labs - MOU with Simdaa Technology is suggested. 2. Industry Institute Interaction - Focus on enhancing the interaction between faculty and industry experts to align academic knowledge with industry trends. - Use platforms like Databricks for collaboration.

		• Second Saturday of every month, a dedicated interaction session with Simdaa Technology members will be held from 10 AM to 12 PM.
6	Remarks and Suggestions from Parents Representative Mr. Sanjay Patil	• The importance of increasing faculty-parent interactions was emphasized to enhance student development. • More hands-on practical training should be provided to students to keep them engaged.
7	Remarks and Suggestions from Hon Principal Dr. D. V. Ghewade	• The principal highlighted the importance of modernizing department infrastructure, especially in terms of laboratories, software tools, and learning resources, to keep up with industry requirements. • The principal encouraged more research initiatives in AI, Machine Learning, it was suggested that faculty and students collaborate on research projects and publish papers in reputed journals and conferences.
8	Conclusion	• The meeting emphasized a holistic approach to enhancing academic and practical learning experiences for students, improving faculty development, and fostering closer ties with the industry and parents. The suggestions provided are aimed at creating a dynamic and forward-thinking environment within the Department of Computer Science and Engineering. • The principal sir suggestions further strengthened the action points, ensuring a comprehensive strategy for student success and faculty growth. • The implementation of the discussed action points will contribute to the overall growth and success of the department, its students, and its faculty members.
9	Closing Remark	At the end of the session, Prof. H. S. Naikwadi proposed the Vote of Thanks: • She thanked the Academic Expert Dr. Anagha Kulkarni and Industry Experts Mr. Amit Pednekar, for their valuable suggestions. • She expressed gratitude to Parents' Representative Mr. Sanjay Patil. • She thanked Hon Principal Dr. D. V. Ghewade, Academic Dean Dr. V.G. Mathad and HOD Prof. M. K. Hasbe for their contributions. • She appreciated all faculty members for their participation.

Outcomes of Department Advisory Board Meeting

Date: 21/09/2024

Venue: Programming Lab

1. Curriculum Enhancement

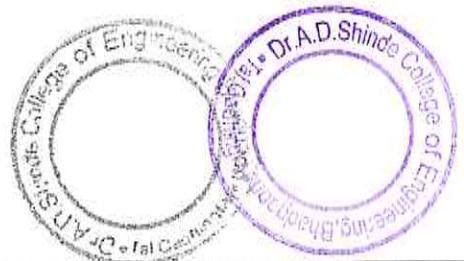

- Approved updates to undergraduate and postgraduate curricula to include:
 - AI/ML modules in core courses.
 - Introduction of elective on Quantum Computing.
 - Addition of a project-based course on IoT Applications.

2. Industry Collaboration

- Agreed to strengthen industry-academia ties through:
 - MoUs with different electronics-based companies for internships and joint research.
 - Inviting industry experts for guest lectures and seminars.
 - Setting up an Industry Advisory Cell to monitor emerging tech trends.

3. Research & Development

- Encouraged interdisciplinary research initiatives.

- Decided to allocate seed funding for faculty-led projects in AI, cybersecurity, and embedded systems.
- Plan to establish a Center of Excellence in Embedded AI Systems.

4. Infrastructure Development

- Approved procurement of:
 - High-performance computing (HPC) systems for research.
 - IoT and robotics kits for laboratory use.
 - Software licenses for simulation and design tools (e.g., MATLAB, Xilinx, Cadence).

5. Student Skill Development

- Proposed launch of regular coding bootcamps and hardware hackathons.
- Encouraged participation in national and international tech competitions.
- Discussed forming student innovation clubs in AI, Robotics, and Cybersecurity.

6. Placements & Internships

- Reviewed placement statistics and identified areas for improvement.
- Plans to onboard new recruiters through alumni and industry outreach.
- Decided to conduct mock interview and resume building workshops.

7. Feedback & Continuous Improvement

- Student and faculty feedback highlighted need for more practical exposure.
- Recommendations to review curriculum annually and conduct exit surveys.

*****For Theory CIE 30 Marks,**

Two tests of 30 marks at college should be conducted and best of two marks should be communicated to university.

*****Guidelines to paper setter:**

In theory ESE examination of 70 marks following points should be considered,

1. First question of 10 marks should be allotted to Objective type questions.
2. In Remaining 60 marks, four questions of 15 marks should be considered.

***For Theory CIE 30 Marks,

Two tests of 30 marks at college should be conducted and best of two marks should be communicated to university.

***Guidelines to paper setter:

In theory ESE examination of 70 marks following points should be considered,

1. First question of 10 marks should be allotted to Objective type questions.
2. In Remaining 60 marks, four questions of 15 marks should be considered.

All the **Third Year Civil Engineering** students hereby inform that the **Industrial Visit** has been arranged as part of the **Environmental Engineering-II** subject. The visit will be to the **Sewage Treatment Plant (STP)** at **Kasaba Bawada, Kolhapur**. This visit is aimed at giving you a practical understanding of sewage treatment processes and their importance in environmental engineering.

Details of the Industrial Visit:

- Day/Date : Friday, 11/04/2025
- Venue: STP, Kasaba Bawada, Kolhapur

Important Instruction

1. **Attendance is mandatory.** student must attend the visit as it is a part of the curriculum.
2. Ensure you carry a valid college ID card & wear Comfortable clothing & shoes.
3. A brief report on the site visit will be required after the visit.

Subject: Regarding Permission for visit to Sewage treatment Plant to observe and study for academic purpose.

Respected Sir/Madam,

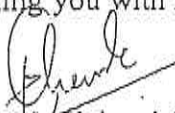

Dr. A. D. Shinde College of engineering is one of the renowned institutes in the western Maharashtra established in 2014. Our institute is approved by AICTE New Delhi, recognized by DTE Mumbai and affiliated to Shivaji University Kolhapur. We are offering 6 UG courses in Civil, Mechanical and Mechatronics, Electrical and Computer Engineering, Computer Science and Engineering, Electronics & Computer Science and CSE (Artificial Intelligence and Machine Learning) with an intake of 390. Our institute has played a very important role in providing quality technical education to rural youth and contributed to national growth. Our distinguished alumni are working at top posts in various companies all across the world.

We would like to arrange a visit to your site for Third year Engineering students. This visit aims to enhance students' understanding of the subject through practical experiences.

Hence, we request you to permit our students to visit Sewage treatment Plant. The no. of students will be 35 accompanied by two staff members.

We request you to consider our request and convey us a suitable date at the earliest.

Thanking you with regards,

(Dr. D. V. Ghewade)

Sewage Treatment Plant – Kasba Bawada, Kolhapur

Date of Visit: 11.04.2025

Visited for: T.Y. Civil

Students

Location: Kasba Bawada, Kolhapur, Maharashtra

Purpose: To understand the functioning of a sewage treatment plant and its components practically.

1. Introduction

As part of our curriculum in Environmental Engineering, we had the opportunity to visit the Sewage Treatment Plant (STP) located at Kasba Bawada in Kolhapur. With a capacity to treat 76 million litres of sewage every day, this plant plays a crucial role in ensuring that the city's wastewater is treated before being released into natural water bodies or reused.

While we often learn about treatment processes like screening, sedimentation, and aeration in textbooks, this visit gave us a closer look at how each of these steps works in reality — with real equipment, real-time operations, and professional supervision.

2. Objective of the Visit

The main goal was to observe the physical layout of the plant, understand the sequence of operations, and get familiar with the working of both mechanical and biological treatment units. It also aimed to help us link theoretical knowledge with field practices.

3. Plant Overview

The Kasba Bawada STP uses **Sequential Batch Reactor (SBR)** technology, which is considered one of the more advanced biological treatment methods today. The plant treats domestic sewage from Kolhapur city, bringing down pollutants like BOD (Biochemical Oxygen Demand), Suspended Solids, and harmful pathogens to within safe discharge limits.

Aeration (SBR System)

The core of the plant is the **SBR system**. This is where the real biological treatment happens. We learned how microorganisms are "fed" with oxygen through diffused air, allowing them to break down organic waste in the sewage. The reactors run on a batch cycle — filling, aerating, settling, and decanting — all in one tank.

Sedimentation

Once aeration is complete, the water is allowed to stand so that the microbial flocs (biomass) settle to the bottom. This is a natural separation process, and it leaves clear water at the top, which can then be safely removed.

Coagulation and Flocculation

In cases where there is extra turbidity or nutrient load, chemicals like alum are added. This step helps clump tiny particles into larger flocs, making them easier to settle out.

Secondary Sedimentation

This clarified water passes through another settling zone where the chemical flocs are removed. The result is an even cleaner effluent.

Decantation

After sedimentation, a special mechanism called a **decanting arm** slowly draws off the clean water from the top of the tank. This ensures minimal disturbance to the settled solids at the bottom.

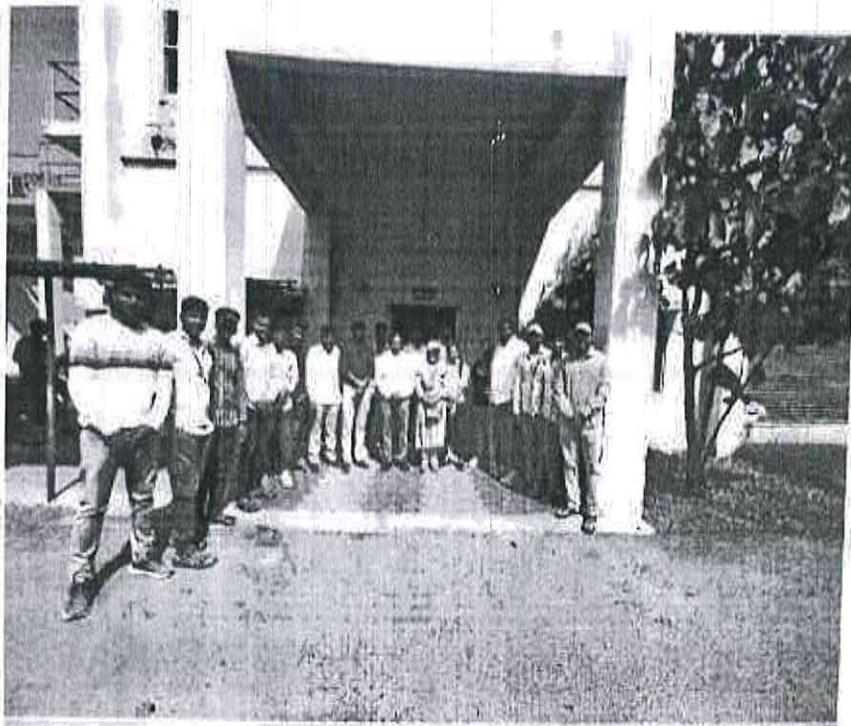

Dewatering

All the sludge from the process — both biological and chemical — is handled in **dewatering units**. These machines remove the excess water from the sludge, turning it into a semi-solid form that's easier to handle and dispose of.

Chlorination

As a final touch, the treated water is disinfected using chlorine to kill any remaining disease-causing organisms. The water is now safe for discharge into rivers or for non-drinking reuse like gardening and landscaping.

To,

The Principal,

Dr. A. D. Shinde College of Engineering,

Bhadgaon.

Respected Sir,

Subject: Request for Permission to organize Industrial Visit for Third-year Students at Simdara Technology, Gadhinglaj.

With reference to the above subject, we are planning to schedule industrial visit for our Third-year students. This visit will provide them with valuable exposure to the actual operations of **Data Analytics** including various aspects related to the industry.

Therefore, I kindly request your permission to allow the Third-year students and accompanying staff from the Department of Computer Science and Engineering of A. D. Shinde College of Engineering to visit **Simdara Technology, Gadhinglaj** on **18th March 2025**. The visit will offer a significant learning experience for approximately **60 students**, who will be accompanied by **two teaching staff members**.

Additionally, I request permission to **arrange a bus for the transportation** of the students and staff to and from the industrial site.

This request is made for your kind consideration and approval. I am confident that the visit will greatly benefit the students in understanding the practical applications of data analytics in the industry.

Thanking you.

INDUSTRIAL VISIT REPORT

Simdaa Technologies – A Data Analytics Company

The Computer Science & Engineering Department of Dr. A. D. Shinde College of Engineering organized an industrial visit to Simdaa technologies, a leading data analytics company, on 18th March 2025. The objective of this visit was to provide third-year CSE students with exposure to real-world data analytics applications, industry tools, and corporate work culture.

Simdaa technologies works with global clients, including UPL, Birla, PTC (US-based), the US government, PMIL (Germany-based), and Phonics. The company specializes in database management (MySQL, Teradata), reporting tools (SSRS, Power BI), programming (Java, Python), and cloud solutions (Databricks). They also provide training programs for freshers and follow a hybrid work culture.

During the visit, students gained insights into data-driven decision-making, business intelligence solutions, and industry best practices. The session covered technology demonstrations, real-world applications, and career opportunities in data analytics.

Students found the visit highly informative and engaging. They appreciated the opportunity to understand practical implementations of database management, reporting tools, and programming. The exposure to industry-relevant tools like Power BI and Databricks helped them relate theoretical knowledge to real-world applications. Many students expressed interest in exploring data analytics, business intelligence, and cloud computing as career options.

Subject: - Regarding Industrial visit to your esteem organization.

Respected Sir,

We are at Dr. A. D. Shinde College of Engineering, Bhadgaon, Gadhinglaj, running Degree course Affiliated to Shivaji University Kolhapur. As a part of curriculum the students are required to undertake industrial visits to a few industries of repute. We feel it will be fruitful that the students with academic background have a glimpse of industry in order to have a better appreciation of practical applications of theory. In the above background we would like to visit a batch of about 40 students of Second and Third year Engineering accompanied by 02 staff members to visit your esteemed organization.

I request you to kindly accord necessary permissions for above visit for One day. We assure you that our students will observe and follow the rules and regulations that are prescribed by your organization for visitors and will in no way disturb the functioning of the organization during their visit. We shall be grateful for the favorable response.

Thanking you,

Yours faithfully
