Usage of Library by Teachers and Students

This is to certify that per day usage of library for circulation, reading room consultation and reference facilities is as follows:

Formula: average = Total number of teacher and students on every working day for all working

Total number of working days

1) Number of teachers accessing library per day:

Average= Total number of teachers =44

On every working day for all working days- $2160 / 184 = 12$ Faculty /day

Total number of working days=184

2) Number of students accessing library per day: Average=

Total number of students 844

On every working day for all working days $13935 / 184 = 75$ Students /day

Total number of working days=184

As per library management software usage date (01/07/2024 to 30/06/2025)

Average number of users Accessing Library per day: $12 + 75 = 87$
