**NAAC Criterion 6 – Governance, Leadership and Management**  
**Metric 6.2.1: Implementation of Perspective Plan (AY 2024–25)**

As part of the Perspective Plan for the academic year 2024–25, the institute identified the *Establishment of an AI-enabled Robotics Laboratory* as a key strategic initiative to strengthen academic delivery, employability, and alignment with emerging technologies. This initiative was successfully implemented during the said academic year through systematic planning and effective governance.

The management approved the proposal with defined objectives, budgetary provisions, and timelines. A dedicated committee comprising senior faculty members from relevant engineering disciplines was constituted to oversee execution. The laboratory was established with modern robotic kits, AI-enabled controllers, sensors, and simulation software, ensuring hands-on exposure to automation, artificial intelligence, and robotics.

The facility is actively utilized for curriculum enrichment, mini-projects, interdisciplinary learning, and student innovation activities. Faculty members were oriented through internal training sessions to effectively integrate the laboratory into teaching–learning processes. As a result, students from rural backgrounds gained access to advanced technological infrastructure comparable to metropolitan institutions.

The successful establishment of the AI-enabled Robotics Lab demonstrates the institute's commitment to its perspective plan, participative leadership, and proactive governance in achieving academic excellence and industry relevance.
