Student centric methods, such as experiential learning, participative

learning and problem-solving methodologies are used for enhancing learning
experiences and teachers use ICT- enabled tools including online resources for
effective teaching and learning process

EXPERIENTIAL LEARNING

Experiential learning Experiential learning is the process of learning through experience. Institute is inculcating self-learning and life-long skills through following activities:

Internships / Field training

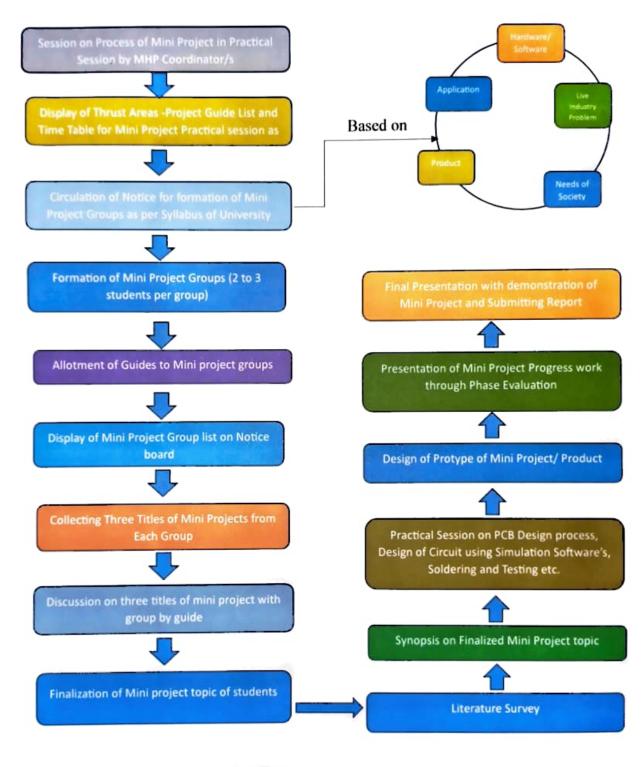

Dr. A. D. Shinde College of Engineering, Bhadgaon

Sr. No.	Name of the Activity	Purpose of Activity			
1	Mini Projects	The purpose is to develop the product/ project using model tools/techniques to solve complex engineering problems of the industry and society			
2	Final Year Projects	The purpose is to develop the product/ project using practical tools/techniques and advanced labs to solve complex engineering problems of the industry and society.			
3	Industrial Visits	Industrial visits are arranged for students with an objective of providing students functional opportunity in different sectors. It gives an industrial exposure to grow their knowledge and skills.			
4	Internships/ Vocational/Field Training	Vocational training allows students to gain practical experience in industry before they graduate			
5	Virtual Labs	The Virtual Laboratory is an interactive environment for creating and conducting simulated experiments.			
6	Hands-on Workshops	A hands-on workshop helps students to expertise in practical domain			
7	Technical Symposium	Technical Symposiums enhance the technical knowledge of students and provide them a platform to exhibit their talents.			
8	Placement Activity (Mock Interview)	A mock interview process helps candidates gain confidence with the chance to reflect on their non-verbal and verbal communication abilities. It also provides an opportunity for interviewees to make mistakes and work on correcting them in a safe atmosphere.			
9	Use of Visualizations	The purpose of using Visualizations like animations, videos and simulator is to convey a complex and concrete information effortlessly.			
10	Teaching in classroom and laboratories	Purpose of teaching in classroom and laboratories is to give students first-hand experience and offer better opportunities for learning. Teaching in a classroom gives students the opportunity to engage in live discussions.			
11	Industry Expert/ Researchers Lecture	Industrial Experts speakers have become an important part of the educational experience for students. They expose students to real-world life experiences. Students get to see the insight and perspective of the guest speaker's particular field.

Mini Projects Guidelines

Participative Learning

Dr. A. D. Shinde College of Engineering, Bhadgaon

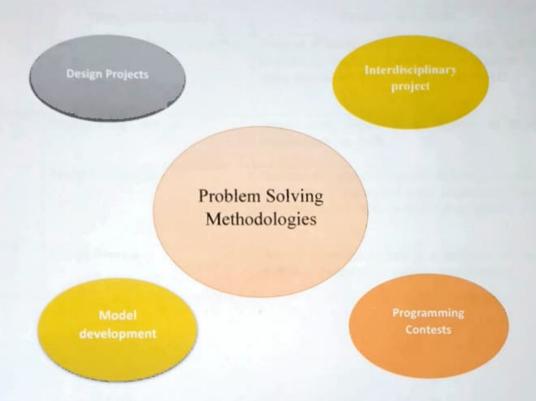

Sr. No.	Name of the Activity	Purpose of Activity
1	Technical Competitions like Tech- manthan, Project Competitions	The purpose for conducting such a competition for sharing their projects ideas with the world
2	Participation in Paper Presentation Competition / Publications / Conferences	Participation in Conferences helps to exchange knowledge also helps students to gain deeper insights after meeting people and make meaningful connections, and bring back valuable ideas and strategies.
3	Extra and Co-curricular Activities	Co-curricular activities improve the learning experiences of students, help them identify and develop their inner talents like creative & public speaking skills, leadership qualities, etc.
4	Quiz Solving and Group discussion	It encourages active participation, exchange of ideas and boosts confidence of students when they are able to provide the solutions by themselves. It improves their analytical thinking and problem-solving skills to a great extent.

Problem Solving Methodologies

Dr. A. D. Shinde College of Engineering, Bhadgaon

Sr. No.	Name of the Activity	Purpose of Activity Purpose of interdisciplinary activities is to enable students to improve their analysis abilities by using approaches from different disciplines.		
1	Interdisciplinary Project Activities			
2	Programming Contests	programming contest helps students to build problem-solving skills		
3	Model Development	Purpose of model development is to help students to visualize a system and make predictions about how systems will behave under given conditions		
4	Design Projects	Purpose of design project is to problem solving skills and incorporate creativity into learning
